Films That Make You Think: The Magnitude of all Things

Mary St. Centre, 24 Mary St, Parry Sound

When Jennifer Abbott lost her sister to cancer, her sorrow opened her up to the profound gravity of climate breakdown. Abbott's new documentary *The Magnitude of All Things* draws intimate parallels between the experiences of grief—both personal and planetary. Stories from the frontlines of climate change merge with recollections from the filmmaker's childhood on Ontario's Georgian Bay. What do these stories have in common? The answer, surprisingly, is everything. For the people featured, climate change is not happening in the distant future: it is kicking down the front door. Battles waged, lamentations of loss, and raw testimony coalesce into an extraordinary tapestry, woven together with raw emotion and staggering beauty that transform darkness into light, grief into action.

Approx. 60 min. Standing and Barre Workout. We use a chair for the barre portion (*but we are not sitting*)! The barre component is used to stretch and strengthen the hip joint and for deep leg and glute stretches.

This full-body toning, conditioning and energizing workout results in improved mobility, strength, posture and greater energy.

Dynamic fluid movements focus on:

- Build strength in muscle groups that are often overlooked to prevent injuries,
- Boost cardiovascular system,
- Strengthen the core,
- Leg and glute strengthening,
- Compound movements to intelligently activate more than one muscle group at a time,
- Move your fascia and connective tissue to relieve stiffness in joints including the spine,
- Improve balance and muscular endurance
- Classes are ALWAYS low impact for protecting our joints with an emphasis on body alignment,
- Classes are ALWAYS full body to rebalance the muscle the groups from head to toe.

You will leave feeling invigorated and move throughout your day with greater ease and well-being.

Workout is suitable for all fitness levels and body types. If you are active and want to maintain an active lifestyle this class is for you. If you are beginning to exercise, modifications are suggested to decrease difficulty or intensity to help you on your journey to well-being.

Approx. 60 min. Standing and Barre Workout. We use a chair for the barre portion (*but we are not sitting*)! The barre component is used to stretch and strengthen the hip joint and for deep leg and glute stretches.

Dynamic fluid movements focus on:

- Build strength in muscle groups that are often overlooked to prevent injuries,
- Boost cardiovascular system,
- Strengthen the core,
- Leg and glute strengthening,
- Compound movements to intelligently activate more than one muscle group at a time,
- Move your fascia and connective tissue to relieve stiffness in joints including the spine,
- Improve balance and muscular endurance
- Classes are ALWAYS low impact for protecting our joints with an emphasis on body alignment,
- Classes are ALWAYS full body to rebalance the muscle the groups from head to toe.

You will leave feeling invigorated and move throughout your day with greater ease and well-being.
